

RONDA

Low profile system for all indoor lighting needs

RONDA is part of LEDiL's platform of modular light engines with very wide customization possibilities. Supporting different base parts and numerous front panel fastening methods it can be adapted to a wide range of applications. Whether used in museums, offices or for architectural purposes the same modular solution can be used with different beam patterns as well. Three different holders provide support with LEDiL base parts and HEKLA connectors/sockets, and 3rd party connectors from TE, Bender+Wirth, BJB, Ideal and Stucchi.

NEW!

RONDA-WAS2

Flat wall washer lens ideal for floor installations
